jesseclark.io

A passionate, mission-based product leader, with eight years of experience, who relies on his strong foundations in product marketing, software, security, and business administration to build high-impact, software teams, and to deliver customer focused products.

Recent Experience

Senior Manager – Architecture & Tech Adv
Capital One

03/18–Current

I am the technical product manager for our enterprise search platform, architecture tools, and co-lead our internal code re-use community. My focus is to advance a culture of designing, and engineering as one team through improved software discovery, shared architectural patterns and a simplified technology landscape.

Director–Product Development & Marketing
Explore Interactive

02/18–09/18

Led product & digital marketing paired with lean product development to deliver our educational AR games for 3rd – 6th-grade students. During my time with *Explore!* we raised over \$100,000, saw >200% growth in social media engagement, and partnered with [HitPoint Studios](#) to launch the [Sneak Peek Kit](#)

Director–Software, GhostRed
GE Digital

07/16–11/17

Led market research, defined product & execution strategy, and raised funding to form mission-based software organization to connect smart-creatives with world-changing careers. Our \$1MM organization designed and delivered 20 technology competitions in 12 months and hired 8 full-time employees.

Product Manager–API Management
GE Digital

04/15–07/16

Marketed, engineered, and built a community of 250 engineers around GE's multi-million-dollar API management platform; positioned as GE's data-marketplace. Co-authored 5 authentication standards, and self-service offering to improve security, developer productivity, and to accelerate the adoption of service-oriented-architecture – projected >\$1MM in savings to perpetuity.
